

LancasterOpenHouses.com

LANCASTER COUNTY ASSOCIATION OF REALTORS®

- LancasterOpenHouses.com is a "real time" listing of all of the Open Houses available through the Keystone MLS Network. Plan your open house tours anytime throughout the week – no need to wait for Sunday mornings.
- Homes may be searched by date of open house, price range, type of house, school district, municipality, address or MLS number.
- Homes are available through Google Map or Google Earth, and are viewable in map, satellite, hybrid or terrain format.
- The search results screen displays "thumbnail sketches" and detailed descriptions side-by-side. This feature allows you to see property summaries, showing time, public remarks, property features, room dimensions, maps and directions without navigating away from the results page.
- Search individual municipalities or entire school districts with one simple "click".
- You may add selected listings to your "favorites" section for further review, and secure "printer-friendly" copies. Preview and e-mail open houses directly from your "favorites" file.
- All listing photos are also available, both exterior and interior, on the lower portion of the results screen. Receive updated information in real time.
- Recalculating search criteria is as simple as selecting the Search/Main tab, then revising the features, location, price, etc.
